Neumann Goretti Math Summer Assignment- ALL GRADES

Welcome to your Neumann Goretti math class!

The purpose of our summer math assignment is to help you retain the skills you learned during the previous school year. This year's summer assignment will be completed using the Khan Academy website.

Important information about your summer assignment:

- Due Date: All work must be complete by **September 7th, 2018**
- You are responsible for completing each assignment and scoring a minimum of 80% on each unit test.
- It is suggested that you spend at least 10 hours working on this assignment over the course of the summer, so about **one hour per week** of summer.
- Completion of your summer assignment will be worth a **test grade** in the first quarter. Failure to complete your summer assignment will result in a **zero** for a test grade in the first quarter.
- If you have trouble logging into Khan Academy and joining your class, please contact Mrs. Torres at gtorres@neumanngorettihs.org. Additionally, if you will not have access to a device/wifi over the summer, you may come to school and use one of our computers by contacting Mrs. Torres at gtorres@neumanngorettihs.org and setting up a time.

Directions for logging into Khan Academy:

1. If you are new to Khan Academy, sign up at khanacademy.org using your Neumann Goretti Google account. When the Google Accounts window appears, click "Allow" to proceed. If you cannot access your Google account or **if you are incoming Freshman or transfer student**, you may use another email account.
2. Next, go to the "Profile" tab and then click on "Coaches".
3. In order to begin the assignments, the first time you login you will need to click on the "Add a coach" field and then enter the class code based on the course you are entering in September 2018:
 - a. **Entering Algebra 1:** D2JYXUWF
 - b. **Entering Geometry:** R9VB82S8
 - c. **Entering Algebra 2:** 3P5NMQA6
 - d. **Entering Precalculus:** FUZ79R46
 - e. **Entering AP Calculus:** H43K6MBP
4. **There will be a 1-2 business day delay before your assignments appear. When you check back in 1-2 days after signing up** click "Home" to start your assignment. If your assignment (called a mission) does not immediately appear, look at the top of the screen at the "bell" to see if you have a number (1) indicating a notification. If so, click on that notification to begin.
